

ABDUL MANNAN SIDDIQI

Full Stack Developer

Lahore, Pakistan | +92-306-9035379 | abdulmannansiddiqi7@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with production deployment experience across the MERN stack , including cloud infrastructure (Vercel, Render, Aiven) and AI-integrated features such as Google Gemini-powered chat and Flask-based APIs. Comfortable owning a project end-to-end — from local development through live, publicly accessible deployment.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, PHP

Databases: MongoDB, MySQL, Prisma ORM

Tools & Platforms: Git, GitHub, VS Code, Postman, XAMPP, Vercel, Render, Aiven

PROJECTS

Madina Model School — Full-Stack Website & Admin Panel — *Next.js, Express, Prisma, MySQL*

- Delivered a production website for a real educational institution serving 800+ students, including a JWT-authenticated admin panel for independent content management by non-technical staff
- Deployed a multi-service architecture across Vercel (frontend), Render (backend), and Aiven (managed MySQL), configuring SSL/TLS, CORS, and environment-based secrets
- Resolved production-specific issues — including cross-platform filename case sensitivity and database SSL certificate validation — not encountered in local development

Personal Portfolio — MERN Stack + AI Chatbot — *React, Node.js, Express, MongoDB, Gemini AI*

- Rebuilt personal portfolio as a full MERN stack app with a custom, component-based React architecture
- Integrated a Google Gemini-powered AI chatbot to answer visitor questions about skills and projects in real time
- Built a Node.js/Express backend with RESTful APIs and dynamic project data served from MongoDB Atlas

Coal Trade — AI Integrated Marketplace — *MERN Stack, Flask, REST APIs*

- Built a full-stack marketplace platform using the MERN stack (MongoDB, Express, React, Node.js)
- Integrated AI features via Flask APIs to enhance product search and recommendation functionality
- Developed secure REST APIs with JWT-based authentication and a full CRUD admin dashboard

PROFESSIONAL EXPERIENCE

Web Development Intern & Admin Support | Tec Joint IT Solutions *Nov 2025 – Jun 2026*

- Built responsive web applications using React.js and JavaScript, integrating AI-driven features into product workflows
- Collaborated with cross-functional teams to manage project timelines and ensure smooth execution, alongside light administrative support

Web Development Trainee | TFT (Training From Tomorrow) *Aug 2024 – Nov 2024*

- Built foundational skills in C++ basics, and HTML/CSS/JavaScript fundamentals
- Worked on junior-level development tasks, strengthening core front-end logic and problem-solving skills

CERTIFICATIONS & EDUCATION

Full Stack Web Development Certification — NAVTTC (Feb 2026 – Apr 2026)

IT Specialist - JavaScript Certification — Pearson VUE (Apr 2026)

BS Computer Science — Islamia University of Bahawalpur
